\*Please reference the appropriate section of WAC 173-350 for full requirements.

<b>Location Requirements WAC 173-350-230(3)</b>	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
There are no specific location standards for land application sites subject to this chapter; however, land application sites must meet the requirements provided under WAC 173-350-040		

<b>Design Standards WAC 173-350-230(4)</b>	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
There are no specific design standards for land application sites subject to this chapter; however land application sites must meet the requirements provided under WAC 173-350-040		

<b>Documentation WAC 173-350-230(5)</b>	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
There are no specific engineering or construction documentation requirements; however land application sites must meet the requirements provided under WAC 173-350-040		

<b>Operating Standards WAC 173-350-230(6)</b> Describe how the facility meets the regulatory requirements in the supporting documents. Indicate the location of all documents.	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
A description of the types of solid wastes to be handled at the site (6)(a)(i)		
A description of the processes by which the solid waste is generated and treated (6)(a)(ii)		
A description of the characteristics of the waste that provide agronomic, soil-amending or reclamation capability (6)(a)(iii)		
A waste monitoring plan that provides representative characterization of the waste over time (6)(a)(iv)		
A description of how the owner or operator will ensure that land application occurs at a predictable application rate determined as follows: (6)(a)(v)		

**Environmental Health Division**

3020 Rucker Avenue, Suite 104 ■ Everett, WA 98201-3900 ■ fax: 425.339.5254 ■ tel: 425.339.5250

<ul style="list-style-type: none"> <li>For agricultural applications, solid waste must be applied to the land at a rate that does not exceed the agronomic rate <b>NA</b> if not for agricultural applications</li> </ul>		
<ul style="list-style-type: none"> <li>For the purposes of land reclamation or other soil amending activities, the application rate may be designed, for example, to achieve a soil organic matter content or other soil physical characteristics to promote long-term soil productivity, with consideration of the carbon-to-nitrogen ratio to control nutrient leaching <b>NA</b> if not for the purposes of land reclamation or other soil amending activities</li> </ul>		
<ul style="list-style-type: none"> <li>For liquid wastes, the application rate must also be based on soil permeability and infiltration rate <b>NA</b> if not for liquid wastes</li> </ul>		
A description of how the owner or operator will determine the application rate that accounts for the characteristics of the waste to be applied, characteristics of receiving site soils, irrigation practices, climate and the crop to be grown (6)(a)(vi)		
A description of the process, system, and equipment that will be used to apply the waste that explains: (6)(a)(vii)		
<ul style="list-style-type: none"> <li>How the equipment and system will be calibrated to deliver waste at the appropriate rate</li> </ul>		
<ul style="list-style-type: none"> <li>Whether the waste will be allowed to remain on the surface of the land, tilled into the soil, or injected into the soil at the time of application</li> </ul>		
<ul style="list-style-type: none"> <li>When the waste will be applied to the land relative to crop and livestock management practices</li> </ul>		
<ul style="list-style-type: none"> <li>Any restrictions on application related to climatic factors including typical precipitation, twenty-five-year storm events, temperature, wind, frozen soils, saturated soils, or seasonal high groundwater</li> </ul>		
A description of how the waste will be managed at all points during storage and application to control attraction to vectors and to mitigate nuisance odor impacts, including a description of how owners or operators will respond to complaints (6)(a)(viii)		
If the seasonal high groundwater is three feet or less below the surface, a management plan describing how groundwater will be protected (6)(a)(ix) <b>NA</b>		
For waste stored in piles at the land application site, a description of how the owner or operator will ensure that: (6)(a)(x)		
<ul style="list-style-type: none"> <li>Contamination of groundwater, surface water, air and land during storage is prevented</li> </ul>		
<ul style="list-style-type: none"> <li>The potential for combustion within the pile is minimized</li> </ul>		
<ul style="list-style-type: none"> <li>The duration of storage of the entire pile is limited to one year and limited to the amount that will be applied to the site during a one-year period according to the plan of operation</li> </ul>		
<ul style="list-style-type: none"> <li>For piles that will not meet conditions A-C of WAC 173-350-230(6)(x), a demonstration that the owner or operator will meet the requirement of WAC 173-350-320 <b>NA</b></li> </ul>		
For waste stored in piles somewhere other than the land application site, a description of how the owner or operator will meet the requirements of WAC 173-350-320 (6)(a)(xi) <b>NA</b>		

**Environmental Health Division**

3020 Rucker Avenue, Suite 104 ■ Everett, WA 98201-3900 ■ fax: 425.339.5254 ■ tel: 425.339.5250

For storage of liquid waste or semisolid waste in surface impoundments or tanks, a deception of how the owner or operator will meet the requirements of WAC 173-350-330 (6)(a)(xii) <b>NA</b>		
A description of how the owner or operator will maintain operating records of the location where the waste is applied, amount and type of waste applied, the crop planted, and other nutrient inputs, including the form or computer printout used to record this information (6)(a)(xiii)		
Other details to demonstrate that the facility will be operated in accordance with this subsection and as required by the SCHD (6)(a)(xiv)		

<b>Ground Water Monitoring Requirements WAC 173-350-230(7)</b>	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
There are no specific ground water monitoring requirements for land application sites to this chapter; however, land application sites must meet the requirements provided under WAC 173-350-040		

<b>Closure Requirements WAC 173-350-230(8)</b> Describe how the facility meets the regulatory requirements in the supporting documents. Indicate the location of all documents.	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
Apply all remaining materials in accordance with the permit <b>NA</b>		
OR methods for removing waste <b>NA</b>		

<b>Financial Assurance Requirements WAC 173-350-230(9)</b>	<b>Location of documents in application</b>	<b>Complete (SCHD ONLY)</b>
There are no specific financial assurance requirements for land application sites subject to this chapter; however, land application sites must meet the requirements provided under WAC 173-350-040
