

2018 Introduction to Placing & Interpreting Tuberculin Skin Tests (TST)

Free Workshop

Help prevent the spread of tuberculosis in Snohomish County. This free 3-hour introductory class provides health care professionals with the opportunity to place and interpret a TST. The class includes Power Point presentation, reference materials to take with you, and hands on administration of the TST.

To register for one of the workshops below or to schedule an on-site training, call 425.339.5225.
