

# HEALTHY YOUTH SURVEY 2021

## Sexual Health and Identity

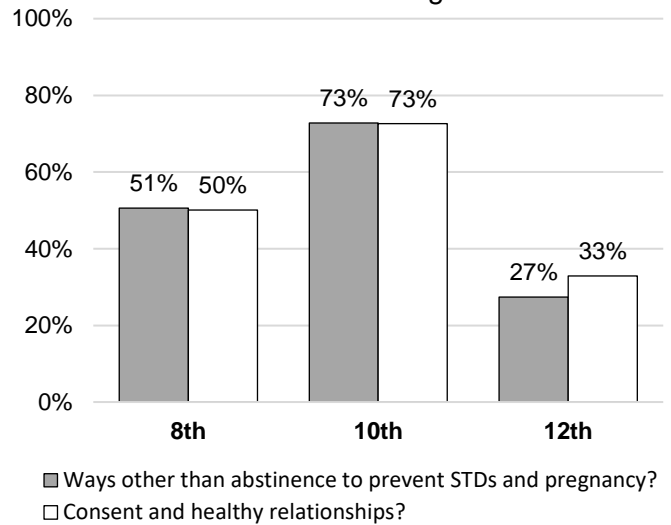

**SNOHOMISH**  
HEALTH DISTRICT  
WWW.SNOHD.ORG

Which of the following best describes your Sexual Orientation?

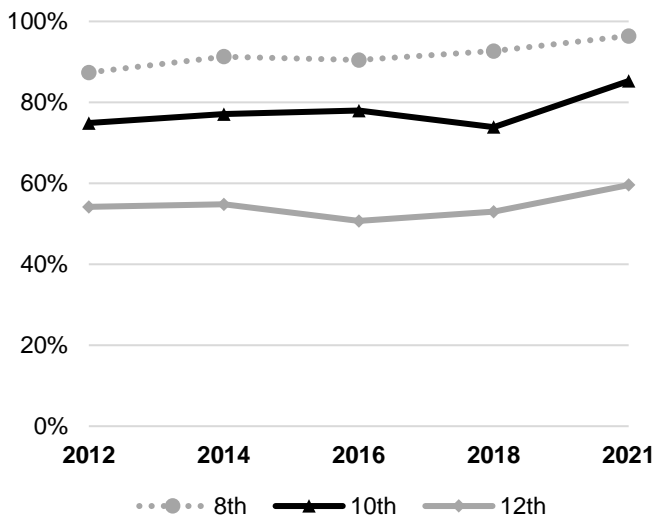

Last year in school, were you taught about the following?

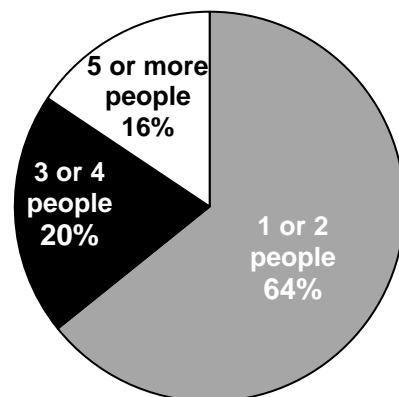

86% of 10<sup>th</sup> graders and 63% of 12<sup>th</sup> graders report *never having had sex*.

Percent of students who report they've *never had sex*\*

Among those who did have sex, **condoms** were the most common contraceptive method, followed by **birth control pills**, then **IUD or implant**. Only 4% of 10<sup>th</sup> graders and 6% of 12<sup>th</sup> graders reported using **no method** to prevent STDs or pregnancy when having sex.

**12<sup>th</sup> Graders who report having had sex:**  
With how many people have you had sex?

\*These, among other differences seen in 2021, could be an artifact of changes to daily life during the pandemic. For more information, please visit [www.askhys.net](http://www.askhys.net) and [www.snohd.org/hys](http://www.snohd.org/hys)
